Colonic Transit and Bile Acid Synthesis or Excretion in Patients With Irritable Bowel Syndrome-Diarrhea Without Bile Acid Malabsorption

Cédric Peleman, Michael Camilleri, Irene Busciglio, Duane Burton, Leslie Donato, Alan R. Zinsmeister

PII: S1542-3565(16)31047-3
DOI: [10.1016/j.cgh.2016.11.012](https://doi.org/10.1016/j.cgh.2016.11.012)
Reference: YJCGH 54992

To appear in: *Clinical Gastroenterology and Hepatology*
Accepted Date: 1 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Colonic Transit and Bile Acid Synthesis or Excretion in Patients With Irritable Bowel Syndrome-Diarrhea Without Bile Acid Malabsorption

Cédric Peleman
Michael Camilleri
Irene Busciglio
Duane Burton
Leslie Donato*
Alan R. Zinsmeister#

from

Clinical Enteric Neuroscience Translational and Epidemiological Research (C.E.N.T.E.R.),

*Department of Laboratory Medicine and Pathology, and

#Department of Health Sciences Research, Division of Biomedical Statistics and Informatics

Mayo Clinic, Rochester, Minnesota

Running title: Fecal bile acids, colon transit and IBS

Word count: 4701 (including references and table and figure legends)

Acknowledgements: The authors thank Mrs. Cindy Stanislav for excellent secretarial assistance.

Grant support: Dr. Camilleri is supported by NIH grant R01-DK92179.

Disclosures: The authors have no conflicts of interests.

Authors' contributions:

M. Camilleri: study concept and design; analysis and interpretation of data; drafting and finalizing the manuscript; study supervision

Cédric Peleman: Analysis of electronic medical records; co-authorship of the manuscript

Irene Busciglio: patient recruitment and care

Duane Burton: colonic transit measurements

Leslie Donato: lab medicine supervision of measurements related to bile acids; co-authorship

Alan Zinsmeister: Biostatistician and co-authorship
