Prophylaxis for Stress Ulcers With Proton Pump Inhibitors is not Associated With Increased Risk of Bloodstream Infections in the Intensive Care Unit

Margot E. Cohen, Joanne M. Hathway, Hojjat Salmasian, Jianfang Liu, Melissa Terry, Julian A. Abrams, Daniel E. Freedberg

PII: S1542-3565(17)30048-4  
DOI: [10.1016/j.cgh.2016.12.035](https://doi.org/10.1016/j.cgh.2016.12.035)  
Reference: YJCGH 55064

To appear in: *Clinical Gastroenterology and Hepatology*  
Accepted Date: 15 December 2016

Please cite this article as: Cohen ME, Hathway JM, Salmasian H, Liu J, Terry M, Abrams JA, Freedberg DE, Prophylaxis for Stress Ulcers With Proton Pump Inhibitors is not Associated With Increased Risk of Bloodstream Infections in the Intensive Care Unit, *Clinical Gastroenterology and Hepatology* (2017), doi: 10.1016/j.cgh.2016.12.035.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **Prophylaxis for Stress Ulcers With Proton Pump Inhibitors is not Associated With Increased Risk of Bloodstream Infections in the Intensive Care Unit**

Short title: PPIs and bloodstream infection in the ICU

Authors: Margot E. Cohen<sup>1</sup>, Joanne M. Hathway<sup>2</sup>, Hojjat Salmasian<sup>3</sup>, Jianfang Liu<sup>4</sup>, Melissa Terry<sup>1</sup>, Julian A. Abrams<sup>1</sup>, Daniel E. Freedberg<sup>1</sup>

<sup>1</sup>Division of Digestive and Liver Diseases, Department of Medicine, Columbia University Medical Center, New York, NY

<sup>2</sup>Department of Epidemiology, Mailman School of Public Health, Columbia University, New York, NY

<sup>3</sup>Biomedical Informatics, New York-Presbyterian Hospital, New York, NY

<sup>4</sup>School of Nursing, Columbia University, New York, NY

Grant support and disclosures: Dr. Freedberg was supported by a Research Scholar Award from the American Gastroenterological Association (AGA) and by the National Center for Advancing Translational Sciences, National Institutes of Health (NIH), (KL2 TR000081, formerly KL2 RR024157). The views expressed in this article represent those of the authors and do not necessarily represent the views of the AGA or the NIH. This project was also funded in part by the grant Health Information Technology to Reduce Healthcare-Associated Infections (R01-NR010822, Elaine Larson). The remaining authors have no conflicts of interest to disclose.

Correspondence: Daniel Freedberg, 630 West 168<sup>th</sup> Street, New York, NY 10032.  
Email: def2004@cumc.columbia.edu; Fax: (212) 305-5576; Phone: (212) 305-1021.

Author contributions:

Margot E. Cohen: Analysis and interpretation of data, drafting of manuscript

Joanne M. Hathway: Study concept and design, drafting of the manuscript

Hojjat Salmasian: Acquisition of data

Jianfang Liu: Clinical electronic data extraction and processing

Melissa Terry: Acquisition of data

Julian A. Abrams: Study concept and design, critical revision of manuscript

Daniel E. Freedberg: Study concept and design, analysis and interpretation of data, statistical analysis, drafting of manuscript
