To appear in: *Clinical Gastroenterology and Hepatology* Accepted Date: 27 October 2016

Please cite this article as: Kucharzik T, Wittig BM, Helwig U, Börner N, Rössler A, Rath S, Maaser C, on behalf of the TRUST study group, Use of Intestinal Ultrasound to Monitor Crohn's Disease Activity, *Clinical Gastroenterology and Hepatology* (2016), doi: 10.1016/j.cgh.2016.10.040.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Title: Use of Intestinal Ultrasound to Monitor Crohn's Disease Activity Torsten Kucharzik¹, Bianca M. Wittig², Ulf Helwig³, Norbert Börner⁴, Alexander Rössler², Stefan Rath², and Christian Maaser⁵, on behalf of the TRUST study group

 ¹Department of Internal Medicine and Gastroenterology, University Teaching Hospital Lüneburg, Lüneburg, Germany
 ²Medical Department, AbbVie Deutschland GmbH & Co. KG, Wiesbaden, Germany
 ³Gastroenterology Practice, Oldenburg, Germany
 ⁴Gastroenterology Practice, Mainz, Germany
 ⁵Ambulanzzentrum Gastroenterologie, University Teaching Hospital Lüneburg, Lüneburg, Germany

Short title: Ultrasonography in monitoring Crohn's disease

Grant Support: The design, study conduct, and funding for the study was supported by AbbVie Deutschland GmbH & Co. KG. All authors participated in the development of the study design, interpretation of data, review, development, and approval of the publication.

Abbreviations: BWT, bowel wall thickening; CD, Crohn's disease; CRP, C-reactive protein; HBI, Harvey-Bradshaw index; US, transabdominal bowel ultrasonograhy
