Fecal Microbiota Transplantation for Recurrent *Clostridium difficile* Infection in Patients with Inflammatory Bowel Disease: A Single Center Experience

Samantha M. Chin, BS, Jenny Sauk, MD, Jasmine Mahabamunuge, BS, Jess L. Kaplan, MD, Elizabeth L. Hohmann, MD, Hamed Khalili, MD MPH

PII: S1542-3565(16)31127-2
DOI: [10.1016/j.cgh.2016.11.028](https://doi.org/10.1016/j.cgh.2016.11.028)
Reference: YJCGH 55014

To appear in: *Clinical Gastroenterology and Hepatology*
Accepted Date: 27 November 2016

Please cite this article as: Chin SM, Sauk J, Mahabamunuge J, Kaplan JL, Hohmann EL, Khalili H, Fecal Microbiota Transplantation for Recurrent *Clostridium difficile* Infection in Patients with Inflammatory Bowel Disease: A Single Center Experience, *Clinical Gastroenterology and Hepatology* (2017), doi: 10.1016/j.cgh.2016.11.028.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Fecal Microbiota Transplantation for Recurrent *Clostridium difficile* Infection in Patients with Inflammatory Bowel Disease: A Single Center Experience
