This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title:** Patients with Hepatocellular Carcinoma Have Highest Rates of Wait-listing for Liver Transplantation Among Patients With End-stage Liver Disease

**Short Title:** Factors Associated with Waitlisting for Liver Transplantation

**Author Names:** David Goldberg, MD, MSCE<sup>1,2,3</sup>; Benjamin French, PhD<sup>2,3</sup>; Craig Newcomb, MS<sup>2</sup>; Qing Liu, BS<sup>2</sup>; Gurvaneet Sahota, MPH<sup>4</sup>; Anna E. Wallace, MPH<sup>4</sup>; Kimberly A. Forde, MD, MHS<sup>1,2</sup>; James D. Lewis, MD, MSCE<sup>1,2,3</sup>; Scott D. Halpern, MD, PhD<sup>2,3,5</sup>

**Affiliations:** 1- Division of Gastroenterology, Department of Medicine, University of Pennsylvania; 2- Department of Biostatistics and Epidemiology, Perelman School of Medicine at the University of Pennsylvania; 3- Leonard Davis Institute of Health Economics, University of Pennsylvania; 4-HealthCore, Inc; 5-Division of Pulmonary, Allergy, and Critical Care, Department of Medicine, University of Pennsylvania

**Grant Support**

1. Dr. Goldberg was funded by the National Institutes of Health (K08-DK098272).
2. This work was supported in part by Health Resources and Services Administration contract 234-2005-37011C.

**Conflicts of interest:** None of the authors have any relevant financial, professional, and/or personal conflicts of interest with respect to this manuscript.

**Abbreviations**

Liver transplant (LT)

Model for End-Stage Liver Disease (MELD)

Hepatocellular carcinoma (HCC)

End-stage liver disease (ESLD)

American Association for the Study of Liver Diseases (AASLD)
