To appear in: *Clinical Gastroenterology and Hepatology*
Accepted Date: 12 December 2016

Please cite this article as: Gonda TA, Viterbo D, Gausman V, Kipp C, Sethi A, Ponerros JM, Gress F, Park T, Khan A, Jackson SA, Blauvelt M, Toney N, Finkelstein SD, Mutation Profile and Fluorescence in Situ Hybridization Analyses Increase Detection of Malignancies in Biliary Strictures, *Clinical Gastroenterology and Hepatology* (2017), doi: 10.1016/j.cgh.2016.12.013.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Mutation Profile and Fluorescence in Situ Hybridization Analyses Increase Detection of Malignancies in Biliary Strictures

Authors:

Tamas A. Gonda MD¹, Domenico Viterbo MD¹, Valerie Gausman MD¹, Claudine Kipp RPA-C¹, Amrita Sethi MD¹, John M. Poneris MD¹, Frank Gress MD¹, Tina Park MD¹, Ali Khan MD, MSPH¹, Sara A. Jackson PhD², Megan Blauvelt BS², Nicole Toney MPH², Sydney D. Finkelstein MD²

Affiliations:

1. Division of Digestive and Liver Disease, Department of Medicine, Columbia University Medical Center, New York, NY
2. Interpace Diagnostics Corporation, Pittsburgh, PA

Correspondence:

Tamas A. Gonda¹

Columbia University Medical Center
161 Ft. Washington Ave, Suite 862
New York, NY 10032

Author contributions:

Study concept and design: TAG, SAJ, SDF

Acquisition of Data: All authors

Drafting of the article: TAG, DV, SAJ, NT, SDF

Critical revision for important intellectual content: All authors

Final approval of the article: All authors

Conflict of interest/funding:

Interpace Diagnostic Corporation provided research grant support to Columbia University Medical Center.

SAJ, MB, NT, SDF are employees of Interpace Diagnostics Corporation.

TAG, DV, VG, CK, AS, JMP, FG, TP, AK have no conflicts of interest to declare.

Abbreviations:

ERCP, endoscopic retrograde cholangiopancreatography; FISH, fluorescence in situ hybridization; MP, DNA mutation profiling; LOH, loss of heterozygosity; PPV, positive predictive value; NPV, negative predictive value; PSC, Primary sclerosing cholangitis; CCA, Cholangiocarcinoma
