This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Working title: Statins & colon cancer survival

**Contributions:**

Hypothesis:	Voorneveld, Hardwick, Reimers & Liefers
Project supervision:	Hardwick & Liefers
Writing manuscript:	Voorneveld & Reimers
Design experiments:	Voorneveld & Reimers
Statistical analysis:	Bastiaannet
Collecting samples (surgery):	van de Velde & Kuppen
Processing samples (pathology):	Morreau & van Wezel
KRAS analysis:	van Eijk
BMP pathway analysis:	Kodach & Jacobs
Database PHARMO:	Herings & van Herk-Sukel
Eindhoven Cancer Registry:	Zanders

**Acknowledgements**

Conflict of interest: Nothing to declare

Funding: dr. Hardwick is funded by the Dutch Digestive Diseases Foundation. Dr Liefers is funded by the Sloos-Alandt family.
