

Accepted Manuscript

The evolving genomic landscape of Barrett's esophagus and esophageal adenocarcinoma

Gianmarco Contino, Thomas L. Vaughan, David Whiteman, Rebecca Fitzgerald

PII: S0016-5085(17)35908-5
DOI: [10.1053/j.gastro.2017.07.007](https://doi.org/10.1053/j.gastro.2017.07.007)
Reference: YGAST 61290

To appear in: *Gastroenterology*
Accepted Date: 11 July 2017

Please cite this article as: Contino G, Vaughan TL, Whiteman D, Fitzgerald R, The evolving genomic landscape of Barrett's esophagus and esophageal adenocarcinoma, *Gastroenterology* (2017), doi: 10.1053/j.gastro.2017.07.007.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The evolving genomic landscape of Barrett's esophagus and esophageal adenocarcinoma

Gianmarco Contino (1), Thomas L Vaughan (2, 3), David Whiteman (4), and Rebecca Fitzgerald (1)

Affiliation

1) Medical Research Council Cancer Unit, Hutchison/Medical Research Council Research Centre, University of Cambridge, Cambridge, UK; 2) Cancer Epidemiology Program, Fred Hutchinson Cancer Research Center, Seattle WA 98104, USA; 3) Department of Epidemiology, School of Public Health, University of Washington, Seattle WA 98195; 4) Deputy Director and Group Leader – Cancer Control; QIMR Berghofer Medical Research Institute; Brisbane Australia

Conflict of interest

RCF is named on patents pertaining to the Cytosonge and associated assays that have been licensed by the Medical Research Council to Covidien (now Medtronic) . All the authors declare no other competing interests.

Author's contribution

GC and RCF designed the review, GC, TLV, DW and RCF wrote the manuscript, GC designed figures and tables.

Funding sources

G.C. is a National Institute for Health Research Lecturer as part of a NIHR professorship grant to R.C.F. TLV supported in part by NIH K05CA124911 and NIH R21 CA197502, DCW is supported by a Research Fellowship (APP1058522) from the National Health and Medical Research Council of Australia. R.C.F. is funded by an NIHR Professorship (RG67258), the Medical Research Council (RG74187), the Biomedical Research Centre and the Experimental Cancer Medicine Centre, and a programme grant from Cancer Research UK (RG66287).
