Hippo Signaling in the Liver Regulates Organ Size, Cell Fate, and Carcinogenesis

Sachin Patel, Fernando D. Camargo, PhD, Dean Yimlamai, MD, PhD

PII: S0016-5085(16)35505-6
DOI: [10.1053/j.gastro.2016.10.047](https://doi.org/10.1053/j.gastro.2016.10.047)
Reference: YGAST 60867

To appear in: *Gastroenterology*
Accepted Date: 18 October 2016

Please cite this article as: Patel S, Camargo FD, Yimlamai D, Hippo Signaling in the Liver Regulates Organ Size, Cell Fate, and Carcinogenesis, *Gastroenterology* (2017), doi: 10.1053/j.gastro.2016.10.047.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
