This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Esophageal dilation with either bougie or balloon technique as a treatment for eosinophilic esophagitis: a systematic review and meta-analysis

Michael Dougherty MD, Thomas M. Runge MD MSCR, Swathi Eluri MD MSCR, Evan S. Dellon MD MPH

Center for Esophageal Disease and Swallowing and Center for Gastrointestinal Biology and Disease, Division of Gastroenterology and Hepatology, University of North Carolina School of Medicine, Chapel Hill, NC

Grant Support: This research was funded by NIH Awards T32 DK007634 (MD, TMR, SE) and R01 DK101856 (ESD)

Competing interests: None of the authors report any potential conflicts of interest with this study. Dr. Dellon is a consultant for Adare, Banner, Receptos, Regeneron, Roche, and Shire, receives research funding from Meritage, Miraca, Nutricia, Receptos, Regeneron, and Shire, and has received an educational grant from Banner.
