Untargeted next-generation sequencing-based first-line diagnosis of infection in immunocompromised adults: a multicentre, blinded, prospective study

Perrine Parize, Erika Muth, Clémence Richaud, Marlène Gratigny, Benoit Pilmis, Arnaud Lamamy, Jean-Luc Mainardi, Justine Cheval, Louise de Visser, Florence Jagorel, Laura Ben Yahia, Geraldine Bamba, Myriam Dubois, Olivier Join-Lambert, Marianne Leruez-Ville, Xavier Nassif, Agnes Lefort, Fanny Lanternier, Felipe Suarez, Olivier Lortholary, Marc Lecuit, Marc Eloit

PII: S1198-743X(17)30094-0

DOI: [10.1016/j.cmi.2017.02.006](https://doi.org/10.1016/j.cmi.2017.02.006)

Reference: CMI 854

To appear in: *Clinical Microbiology and Infection*

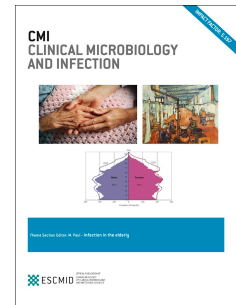

Received Date: 1 December 2016

Revised Date: 3 February 2017

Accepted Date: 4 February 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
