

Anti-*Leishmania amazonensis* activity of *Serjania lethalis* A. St.-Hil

PARASITOLOGY INTERNATIONAL

Parasitology (Printed) is the leading journal in the field of parasitology, which covers all aspects of the biology of parasites and their interactions with their hosts. The journal is published by the Cambridge University Press, which has a long and distinguished history of publishing scientific journals. The journal is published quarterly and is available in both print and online formats. The journal is indexed and abstracted in a number of major databases, including the ISI/BIOMED, EMBASE, and SCOPUS databases. The journal is also available in a number of languages, including English, French, and German.
