This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Delayed villous maturation in term placentas exposed to opioid maintenance therapy: a retrospective cohort study

Authors:

Allison E. Serra, MD, MPH

Lara S. Lemon, PharmD

Neggin B. Mokhtari, MD

W. Tony Parks, MD

Janet M. Catov, PhD

Raman Venkataramanan, PhD

Steve N. Caritis, MD

This study was conducted in Pittsburgh, Pennsylvania at Magee-Womens Hospital.

This study was conducted by members of the division of Maternal-Fetal Medicine, Department of Obstetrics, Gynecology, and Reproductive Sciences at University of Pittsburgh Medical Center (Drs. Serra, Mokhtari, Catov, Parks, and Caritis), the Department of Pathology at University of Pittsburgh Medical Center (Dr. Parks), and the School of Pharmacy at the University of Pittsburgh (Drs. Lemon and Venkataramanan). Dr. Lara S. Lemon is a Ruth Kirschstein T-32 training grant recipient. Dr. Parks has recently accepted a faculty position in the department of Pathology at Dartmouth, and continues to have a faculty appointment in the departments of Pathology as well as Obstetrics, Gynecology and Reproductive Sciences at University of Pittsburgh Medical Center.
