This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **Human papillomavirus vaccination and subsequent cervical cancer screening in a large integrated healthcare system**

Chun CHAO, PhD<sup>1</sup>, Michael J SILVERBERG, PhD<sup>2</sup>, Tracy A BECERRA, PhD<sup>1</sup>, Douglas A CORLEY, MD, PhD<sup>2</sup>, Christopher D JENSEN, PhD<sup>2</sup>, Ms. Qiaoling CHEN, MS<sup>1</sup>, Virginia P QUINN, PhD<sup>1</sup>

<sup>1</sup>Department of Research and Evaluation, Kaiser Permanente Southern California, Pasadena, CA, USA

<sup>2</sup>Division of Research, Kaiser Permanente Northern California, Oakland, CA, USA

### **Conflict of Interest**

Conflict of Interest: Chao C received research funding from Merck, Co. for other studies related to the Gardasil vaccine. The other authors have no conflict of interest to disclose.

### **Financial support**

The design of the study, data collection, study management, and data analysis and interpretation were funded by the Kaiser Permanente Southern California Community Benefit Program and by NCI Grant 3U54CA163262-04S1: Kaiser Permanente PROSPR Cervical Cancer Prevention and Screening (CCaPS) Center. Chao C had full access to all of the data in the study and takes responsibility for the integrity of the data and the accuracy of the data analysis.
