This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Title: Non-response to 17OHP-C for Recurrent Spontaneous Preterm Birth Prevention: Clinical Prediction and Generation of a Risk Scoring System

Authors: Tracy A. MANUCK, MD[1,2], Mr. Gregory J. STODDARD, M.S.[3], Rebecca C. FRY, Ph.D.[4], M. Sean ESPLIN, MD[2,5], Michael W. VARNER, MD[2,5]

Location of Study and Author Affiliations:

[1]Department of Obstetrics and Gynecology, Division of Maternal Fetal Medicine, University of North Carolina-Chapel Hill, Chapel Hill, NC

[2]Department of Obstetrics and Gynecology, Division of Maternal Fetal Medicine, University of Utah School of Medicine, Salt Lake City, UT

[3]Division of Epidemiology, Department of Internal Medicine, University of Utah School of Medicine, Salt Lake City, UT

[4]Department of Environmental Sciences and Engineering, Gillings School of Global Public Health, University of North Carolina-Chapel Hill, Chapel Hill, NC

[5]Intermountain Healthcare Women and Newborns Clinical Program, Salt Lake City, UT

Conflict of Interest/Disclosure Statement: Dr. Sean Esplin serves on the scientific advisory board and holds stock in Sera Prognostics, a private company that was established to create a commercial test to predict preterm birth and other obstetric complications. Dr. Tracy Manuck is also on the scientific advisory board for Sera Prognostics. The remaining authors report no conflict of interest.
