This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

PREDICTORS OF PROFICIENT POWER MOBILITY

Title

Retrospective Analysis of Predictors of Proficient Power Mobility in Young Children with Severe Motor Impairments

Authors

Shelley R. H. Mockler, DSc

Irene R. McEwen, PhD

Maria A. Jones, PhD*

Institutional Affiliations

This study was performed at the Department of Rehabilitation Sciences, College of Allied Health, University of Oklahoma Health Sciences Center, Oklahoma City, Oklahoma.

At the time of the study, the authors were affiliated with the Center for Disabilities and Development, University of Iowa Children's Hospital, Iowa City, Iowa (Dr Mockler) and the Department of Rehabilitation Sciences, College of Allied Health, University of Oklahoma Health Sciences Center, Oklahoma City, Oklahoma (Drs McEwen and Jones).

Previous Presentation of Material

The material in this manuscript was previously presented as a poster presentation at the American Physical Therapy Association's Section of Pediatrics 2015 Annual Conference in Pittsburgh, Pennsylvania, November 6-8, 2015. An abstract was published in *Pediatric Physical Therapy*.

* Dr Jones is currently affiliated with Oklahoma City University, Oklahoma City, Oklahoma.
