This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Running Head:**

**Shock wave reliefs pain in muscle soreness**

**Title:**

**Effect of a single administration of focused extracorporeal shock wave in the relief of Delayed-Onset Muscle Soreness: results of a partially-blinded randomized controlled trial**

**Authors:**

<sup>1,2</sup>Dr. Johannes Fleckenstein, <sup>1</sup>Dr. Mara Friton, <sup>1</sup>Dr. Dr. Heiko Himmelreich, <sup>1</sup>Prof. Winfried Banzer

**Affiliations:**

<sup>1</sup>Department of Sports Medicine, Institute of Sports Sciences, Goethe-University Frankfurt, Germany

<sup>2</sup>Department of TCM/Acupuncture, Institute of Complementary Medicine, University of Bern, Switzerland

**Acknowledgements**

This study constitutes part of the medical thesis of Mara Friton. We thank Dr. Christian Koelbl, MD, PhD, Assistant Professor at Columbia University Division at Mount Sinai Medical Center, Miami Beach, USA to revise our manuscript.

**Conflict of interest**

All authors declare to have no financial or other conflict of interests.
