This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Running head: Dynamic balance retraining for knee osteoarthritis

Dynamic balance training improves physical function in individuals with knee osteoarthritis: a pilot randomized controlled trial

Judit Takacs¹ PhD, Natasha M. Krowchuk¹ BSc, S. Jayne Garland² PT PhD, Mark G. Carpenter³ PhD, Michael A. Hunt¹ PT, PhD
