This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Running head: Life Satisfaction, Dyspnea, and Lifestyle

An Active Lifestyle Is Associated With Reduced Dyspnea and Greater Life Satisfaction in Spinal Cord Injury

Eric Garshick, MD, MOH¹, Sara Mulroy, PhD, PT², Daniel Graves, PhD³, Karen Greenwald, RN⁴, John A. Horton, MD⁴, Leslie R. Morse, DO⁵

¹ Pulmonary, Allergy, Sleep, and Critical Care Medicine Section, VA Boston Healthcare System; Channing Division of Network Medicine, Brigham and Women's Hospital; Harvard Medical School, Boston, MA

² Rancho Los Amigos National Rehabilitation Center, Downey, CA

³ Frazier Rehabilitation Institute, University of Louisville, Louisville, KY

⁴ Department of Physical Medicine and Rehabilitation, University of Pittsburgh Medical Center, Pittsburgh, PA

⁵ Spaulding-Harvard SCI Model System, Spaulding Rehabilitation Hospital; Department of Physical Medicine and Rehabilitation, Harvard Medical School, Boston, MA

Presented at the annual meeting of the International Spinal Cord Society and the American Spinal Injury Association, Montreal, Canada, 2015

This work was supported by the National Institute on Disability, Independent Living, and Rehabilitation Research grant 90SI5007 and in part by Merit Review, Award B6618R and I01 RX000792 from the U.S. Department of Veterans Affairs Rehabilitation Research and Development Service; and NIH Grant AR059270. The contents do not represent the views of the U.S. Department of Veterans Affairs or the United States Government. We thank Merilee Teylan, Boston VA Healthcare System, analyst, for assistance with data cleaning and programming. There are no known conflicts of interest.
