This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

LXR-dependent regulation of macrophage-specific reverse cholesterol transport is impaired in a model of genetic diabetes

Short title: Impaired LXR-mediated m-RCT pathway in db/db mice

Authors: Teresa L. Errico*, Karen Alejandra Méndez-Lara*, David Santos, Núria Cabrerizo, Lucía Baila-Rueda, Jari Metso, Ana Cenarro, Eva Pardina, Albert Lecube, Matti Jauhiainen, Julia Peinado-Onsurbe, Joan Carles Escolà-Gil, Francisco Blanco-Vaca[†], Josep Julve[†]
