To appear in: *The Journal of Urology*
Accepted Date: 5 July 2016

Please cite this article as: Routh JC, Cheng EY, Austin JC, Baum MA, Gargollo PC, Grady RW, Herron AR, Kim SS, King SJ, Koh CJ, Paramsothy P, Raman L, Schechter MS, Smith KA, Tanaka ST, Thibadeau JK, Walker WO, Wallis MC, Wiener JS, Joseph DB, Design and Methodological Considerations of the National Spina Bifida Patient Registry Urologic and Renal Protocol for the Newborn and Young Child, *The Journal of Urology*® (2016), doi: 10.1016/j.juro.2016.07.081.

DISCLAIMER: This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our subscribers we are providing this early version of the article. The paper will be copy edited and typeset, and proof will be reviewed before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to The Journal pertain.

Embargo Policy

All article content is under embargo until uncorrected proof of the article becomes available online.

We will provide journalists and editors with full-text copies of the articles in question prior to the embargo date so that stories can be adequately researched and written. The standard embargo time is 12:01 AM ET on that date. Questions regarding embargo should be directed to jumedia@elsevier.com.
