Response to: Radiofrequency Neurotomy: a Minimally Invasive Procedure to Reduce the Chronic Post Hysterectomy Pain

Vivek Nama, Amit Patel, Joya Pawade, John Murdoch

PII: S1553-4650(16)31158-X

DOI: [10.1016/j.jmig.2016.10.016](https://doi.org/10.1016/j.jmig.2016.10.016)

Reference: JMIG 2983

To appear in: *The Journal of Minimally Invasive Gynecology*

Received Date: 24 October 2016

Accepted Date: 25 October 2016

Please cite this article as: Nama V, Patel A, Pawade J, Murdoch J, Response to: Radiofrequency Neurotomy: a Minimally Invasive Procedure to Reduce the Chronic Post Hysterectomy Pain, *The Journal of Minimally Invasive Gynecology* (2016), doi: 10.1016/j.jmig.2016.10.016.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Response to: **Radiofrequency Neurotomy: a Minimally Invasive Procedure to Reduce the Chronic Post Hysterectomy Pain**
