Dr Volodarsky-Perel Alexander received his medical degree from the Samara State Medical University in Russia. He finished an ObGyn residency in Shaare Zedek Medical Center in Jerusalem, and is now a senior physician in the IVF Unit. He is currently preparing for a gynaecologic reproductive endocrinology and infertility fellowship. His main research focus is on reproductive physiology, cryobiology and preimplantation genetic diagnosis.

### Abstract

The optimal time to perform cryopreserved embryo transfer (CET) after a failed oocyte retrieval-embryo transfer (OR-ET) cycle is unknown. Similar
