Major review: Exfoliation syndrome; advances in disease genetics, molecular biology, and epidemiology

Inas F. Aboobakar, William M. Johnson, W. Daniel Stamer, Michael A. Hauser, R. Rand Allingham

PII: S0014-4835(16)30453-5

DOI: [10.1016/j.exer.2016.11.011](https://doi.org/10.1016/j.exer.2016.11.011)

Reference: YEXER 7059

To appear in: *Experimental Eye Research*

Received Date: 4 August 2016

Revised Date: 6 October 2016

Accepted Date: 10 November 2016

Please cite this article as: Aboobakar, I.F., Johnson, W.M., Stamer, W.D., Hauser, M.A., Allingham, R.R., Major review: Exfoliation syndrome; advances in disease genetics, molecular biology, and epidemiology, *Experimental Eye Research* (2016), doi: 10.1016/j.exer.2016.11.011.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Major review: Exfoliation syndrome; advances in disease genetics, molecular biology, and epidemiology

Inas F. Aboobakar, William M. Johnson, W. Daniel Stamer, Michael A. Hauser, and R. Rand Allingham*

Department of Ophthalmology, Duke University Medical Center, Durham, NC, USA

Keywords: Exfoliation syndrome, glaucoma; pseudoexfoliation; *LOXLI*; *CACNA1A*; TGF- β 1; homocysteine; GWAS; gene-environment interaction
