This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Arthroscopic evaluation of the ankle syndesmosis

The effect of ankle distraction on arthroscopic evaluation of syndesmotic instability: A Cadaveric Study

Running title: Arthroscopic evaluation of the ankle syndesmosis

Bart Lubberts, MD

Research Fellow

Orthopaedic Foot and Ankle Service

Massachusetts General Hospital - Harvard Medical School

55 Fruit St, Boston, MA 02114, United states of America
