Patellar bracing affects sEMG activity of leg and thigh muscles during stance phase in patellofemoral pain syndrome. *Gait and Posture* <http://dx.doi.org/10.1016/j.gaitpost.2017.06.271>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title:**

**The effect of patellar bracing on sEMG activity of selected lower limb muscles during stance phase of gait in patients with patellofemoral pain syndrome**

**Short title:** Muscle activity after patellar bracing in patellofemoral pain syndrome

**Authors:**

Fatemeh Salarie sker <sup>a</sup>, Mehrdad Anbarian <sup>a</sup>, Amir H. Yazdani <sup>b</sup>, Pouria Hesari <sup>a</sup>, Arash Babaei-Ghazani <sup>c\*</sup>

<sup>a</sup> Faculty of Physical Education and Sport Sciences, Bu Ali Sina University, Hamedan, Iran

<sup>b</sup> Hamedan University of Medical Sciences, Hamedan, Iran

<sup>c</sup> Assistant Professor, Department of Physical Medicine and Rehabilitation, Iran University of Medical Sciences, Tehran, Iran

**All correspondence should be addressed to:**

Arash Babaei-Ghazani, MD. Department of Physical Medicine and Rehabilitation, Firozgar hospital, Valieasr square, Tehran, Iran. Fax: +98[21]88942970, Tel: +98[21]88908519, Mobile: +989143153011, E-mail: [arashbabaie@gmail.com](mailto:arashbabaie@gmail.com)

**Source of grant support:** None.

**Authors Disclosures:** No funding or grants or equipment provided for the project from any source and there are no financial benefits to the authors. We assure that the manuscript has not been submitted to any other publication; we accepts full responsibility for the accuracy of all content, including findings, citations, quotations, and references contained within the manuscript; we release and assign all rights for the publication of the manuscript to this journal; we disclose any conflicts of interest related to the research or the manuscript; we disclose any previous presentation of the manuscript or abstract; we assure that authorship has been granted only to those individuals who have contributed substantially to the research or manuscript.

Each of the authors has read and concurs with the content in the final manuscript. The material within has not been and will not be submitted for publication elsewhere except as an abstract.
