Bioactivity of ceftazidime and fluconazole included in polymethyl methacrylate bone cement for use in arthroplasty

Javier Martínez-Moreno, Virginia Merino, Amparo Nácher, José Luis Rodrigo, Blanca Bonet Yuste, Matilde Merino-Sanjuán

PII: S0883-5403(17)30398-4

DOI: [10.1016/j.arth.2017.04.057](https://doi.org/10.1016/j.arth.2017.04.057)

Reference: YARTH 55859

To appear in: *The Journal of Arthroplasty*

Received Date: 1 September 2016

Revised Date: 11 April 2017

Accepted Date: 25 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Bioactivity of ceftazidime and fluconazole included in polymethyl methacrylate bone cement for use in arthroplasty.

Running Title: Ceftazidime and fluconazole bioactivity from bone cements.
