A Targeted Approach to Ligament Balancing Using Kinetic Sensors

Kenneth Gustke, MD, Gregory Golladay, MD, Martin Roche, MD, Leah Elson, Bsc,
Christopher Anderson, MBA MSc

PII: S0883-5403(17)30121-3

DOI: [10.1016/j.arth.2017.02.021](https://doi.org/10.1016/j.arth.2017.02.021)

Reference: YARTH 55664

To appear in: *The Journal of Arthroplasty*

Received Date: 8 December 2016

Accepted Date: 8 February 2017

Please cite this article as: Gustke K, Golladay G, Roche M, Elson L, Anderson C, A Targeted Approach to Ligament Balancing Using Kinetic Sensors, *The Journal of Arthroplasty* (2017), doi: 10.1016/j.arth.2017.02.021.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A Targeted Approach to Ligament Balancing Using Kinetic Sensors
