Revised date: 27-8-2016  
Accepted date: 10-10-2016

Please cite this article as: Jérémy S, Pierre-Marie LONGIS, Norbert PASSUTI, Correlation between radiographic parameters and functional scores in degenerative lumbar and thoracolumbar scoliosis, *Orthopaedics and Traumatology: Surgery and Research* (2016), <http://dx.doi.org/10.1016/j.otsr.2016.10.021>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Original article****Correlation between radiographic parameters and functional scores in  
degenerative lumbar and thoracolumbar scoliosis**
