Title: Defects of the vertebral endplate: implications for disc degeneration depend on size

Author: Uruj Zehra, Luke Flower, Katharine Robson-Brown, Michael A. Adams, Patricia Dolan

PII: S1529-9430(17)30019-0  
DOI: <http://dx.doi.org/doi: 10.1016/j.spinee.2017.01.007>  
Reference: SPINEE 57236

To appear in: *The Spine Journal*

Received date: 24-5-2016  
Revised date: 21-12-2016  
Accepted date: 12-1-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
