This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Original Article

Differential Gene Expression Profiles According to the IASLC/ATS/ERS Histopathological Classification in Lung Adenocarcinoma Subtypes

Camilo Molina-Romero BSc¹, Claudia Rangel-Escareño PhD², Alette Ortega-Gómez PhD¹, Gerardo J. Alanis-Funes PhD³, Alejandro Aviles-Salas MD⁴, Federico Avila-Moreno PhD⁵, Gabriela E Mercado PhD⁶, Andres F Cardona MD, PhD⁷, Alfredo Hidalgo-Miranda PhD⁸ and Oscar Arrieta MD, MSc^{*1}
