

Reviewer Acknowledgment

Academic Pediatrics' reviewers are the best. They freely give their time and provide thoughtful and constructive feedback to authors whose articles are improved by their colleagues' contributions. Authors value this advice. Even when manuscripts are rejected, authors often thank the journal for the reviewers' suggestions. We include here the list of all reviewers whose assignments were completed in 2016. We sincerely apologize to anyone whose name was accidentally omitted from this list.

A

Adams, Bill
Adams, Heather
