Neural network prediction of severe lower intestinal bleeding and the need for surgical intervention

Tyler J. Loftus, MD, Scott C. Brakenridge, MD, MSCS, Chasen A. Croft, MD, FACS, R. Stephen Smith, MD, FACS, Philip A. Efron, MD, FACS, FCCM, Frederick A. Moore, MD, FACS, MCCM, Alicia M. Mohr, MD, FACS, FCCM, Janeen R. Jordan, MD, FACS

PII: S0022-4804(16)30582-0

DOI: [10.1016/j.jss.2016.12.032](https://doi.org/10.1016/j.jss.2016.12.032)

Reference: YJSRE 14115

To appear in: *Journal of Surgical Research*

Received Date: 8 November 2016

Revised Date: 23 November 2016

Accepted Date: 22 December 2016

Please cite this article as: Loftus TJ, Brakenridge SC, Croft CA, Smith RS, Efron PA, Moore FA, Mohr AM, Jordan JR, Neural network prediction of severe lower intestinal bleeding and the need for surgical intervention, *Journal of Surgical Research* (2017), doi: 10.1016/j.jss.2016.12.032.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Neural network prediction of severe lower intestinal bleeding and the need for surgical intervention

Short title: Neural network for GI bleeding

Tyler J. Loftus, MD (Tyler.Loftus@surgery.ufl.edu)
Scott C. Brakenridge, MD, MSCS (Scott.Brakenridge@surgery.ufl.edu)
Chasen A. Croft, MD, FACS (Chasen.Croft@surgery.ufl.edu)

TJL and JRJ contributed to literature review and study design. TJL contributed to data collection and analysis. SCB, CAC, RSS, PAE, FAM, AMM, and JRJ contributed to data interpretation and provided critical revisions.

This work has never been published elsewhere and is not under consideration at any other journals. The authors were supported in part by R01 GM105893-01A1 (AMM), R01 GM113945-01 (PAE), and P50 GM111152-01 (SCB, FAM, AMM, PAE) awarded by the National Institute of General Medical Sciences (NIGMS). TJL was supported by a post-graduate training grant (T32 GM-08721) in burns, trauma and perioperative injury by NIGMS. Research reported in this publication was supported by the National Center for Advancing Translational Sciences under Award Number UL1TR001427. The content is solely the responsibility of the authors and does not necessarily represent the official views of the National Institutes of Health.
