Hemodynamic Effects of the Abdominal Aortic and Junctional Tourniquet in a Hemorrhagic Swine Model

Jason M. Rall, PhD, James D. Ross, PhD, Michael S. Clemens, MD, Jennifer M. Cox, BS, Theresea A. Buckley, MS, Jonathan J. Morrison, MD, PhD, FRCS

PII: S0022-4804(17)30039-2

DOI: [10.1016/j.jss.2017.01.020](https://doi.org/10.1016/j.jss.2017.01.020)

Reference: YJSRE 14132

To appear in: *Journal of Surgical Research*

Received Date: 22 October 2016

Revised Date: 27 December 2016

Accepted Date: 19 January 2017

Please cite this article as: Rall JM, Ross JD, Clemens MS, Cox JM, Buckley TA, Morrison JJ, Hemodynamic Effects of the Abdominal Aortic and Junctional Tourniquet in a Hemorrhagic Swine Model, *Journal of Surgical Research* (2017), doi: 10.1016/j.jss.2017.01.020.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Hemodynamic Effects of the Abdominal Aortic and Junctional Tourniquet in a Hemorrhagic Swine Model

**Short Title:** Hemodynamic Effects of AAJT in Swine

**Author Contributions:** JMR was involved in acquisition of data, analysis and interpretation of data, drafting of manuscript and critical revision. JDR and JJM were involved with the study conception and design, acquisition of funding, analysis and interpretation of data, drafting of manuscript and critical revision. MSC, JMC, and TAB collected data and critically reviewed the manuscript.
