### **Authors' contribution to the manuscript**

Ceith Nikkolo – conception and design, data collection, writing of the manuscript

Tiit Vaasna – data collection

Marko Murruste – data collection

Helmut Seepter – data collection

Jaanus Suumann – data collection

Andres Tein – data collection

Ülle Kirsimägi – statistical analysis

Urmas Lepner – conception and design, data collection, critical revision of the manuscript

### **Disclosure**

The authors declare no conflict of interest.
