Title: Testing the physiological plausibility of conflicting psychological models of response inhibition: a forward inference fMRI study

Authors: Marion Criaud, Marieke Longcamp, Jean-Luc Anton, Bruno Nazarian, Muriel Roth, Guillaume Sescousse, Antonio P. Strafella, Bénédicte Ballanger, Philippe Boulinguez

PII: S0166-4328(17)30880-X
DOI: <http://dx.doi.org/doi:10.1016/j.bbr.2017.06.030>
Reference: BBR 10949

To appear in: *Behavioural Brain Research*

Received date: 25-5-2017
Revised date: 14-6-2017
Accepted date: 19-6-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Testing the physiological plausibility of conflicting psychological models of response inhibition: a forward inference fMRI study

Running Title: Inhibitory control: confronting models with physiological observations
