

## Accepted Manuscript

Title: Increased anxiety but normal fear and safety learning in orexin-deficient mice

Author: Radwa Khalil Markus Fendt

PII: S0166-4328(16)30883-X  
DOI: <http://dx.doi.org/doi:10.1016/j.bbr.2016.12.007>  
Reference: BBR 10600

To appear in: *Behavioural Brain Research*

Received date: 19-10-2016  
Revised date: 6-12-2016  
Accepted date: 7-12-2016

Please cite this article as: Khalil Radwa, Fendt Markus. Increased anxiety but normal fear and safety learning in orexin-deficient mice. *Behavioural Brain Research* <http://dx.doi.org/10.1016/j.bbr.2016.12.007>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Increased anxiety but normal fear and safety learning in orexin-deficient mice
