

## Accepted Manuscript

Title: The role of the drebrin/EB3/Cdk5 pathway in dendritic spine plasticity, implications for Alzheimer's disease

Author: Phillip R. Gordon-Weeks

PII: S0361-9230(16)30139-3

DOI: <http://dx.doi.org/doi:10.1016/j.brainresbull.2016.06.015>

Reference: BRB 9047

To appear in: *Brain Research Bulletin*

Received date: 15-5-2016

Revised date: 23-6-2016

Accepted date: 25-6-2016

Please cite this article as: Phillip R.Gordon-Weeks, The role of the drebrin/EB3/Cdk5 pathway in dendritic spine plasticity, implications for Alzheimer's disease, Brain Research Bulletin <http://dx.doi.org/10.1016/j.brainresbull.2016.06.015>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**The role of the drebrin/EB3/Cdk5 pathway in dendritic spine plasticity,  
implications for Alzheimer's disease.**
