Research report

Brain network alterations in the inflammatory soup animal model of migraine

Lino Becerra, James Bishop, Gabi Barmettler, Vanessa Kainz, Rami Burstein,
David Borsook

PII: S0006-8993(17)30054-9

DOI: <http://dx.doi.org/10.1016/j.brainres.2017.02.001>

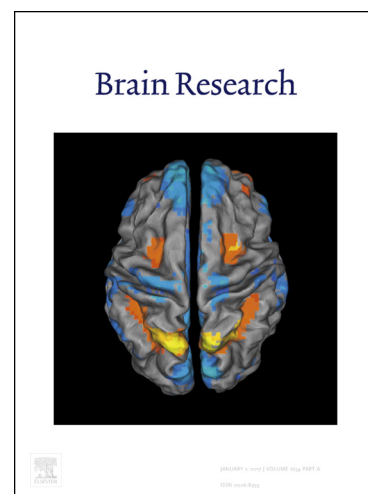

Reference: BRES 45270

To appear in: *Brain Research*

Received Date: 2 November 2016

Revised Date: 11 January 2017

Accepted Date: 1 February 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Running Title: fMRI of the inflammatory soup animal model of migraine

Pages: 31

Figures: 4

Tables: 2

Key Words: fMRI, rat, migraine, inflammatory soup, resting state networks.
