

Author's Accepted Manuscript

Endocannabinoids in brain plasticity: cortical maturation, HPA axis function and behavior

Diana Dow-Edwards, Lindsay Silva

PII: S0006-8993(16)30597-2
DOI: <http://dx.doi.org/10.1016/j.brainres.2016.08.037>
Reference: BRES45082

To appear in: *Brain Research*

Received date: 21 June 2016
Revised date: 23 August 2016
Accepted date: 25 August 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and a review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Brain Research Special Issue: Adolescence as a critical period for developmental plasticity

Endocannabinoids in brain plasticity: cortical maturation, HPA axis function and behavior
