Research report

Chronic fluoxetine treatment directs energy metabolism towards the citric acid cycle and oxidative phosphorylation in rat hippocampal nonsynaptic mitochondria

Dragana Filipović, Victor Costina, Ivana Perić, Andrijana Stanisavljević, Peter Findeisen

PII: S0006-8993(17)30018-5

DOI: <http://dx.doi.org/10.1016/j.brainres.2017.01.025>

Reference: BRES 45261

To appear in: *Brain Research*

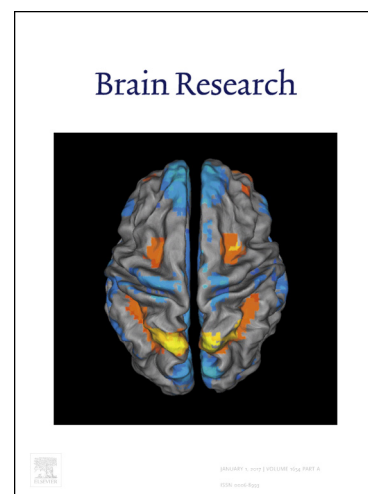

Received Date: 26 August 2016

Revised Date: 24 December 2016

Accepted Date: 12 January 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Chronic fluoxetine treatment directs energy metabolism towards the citric acid cycle and oxidative phosphorylation in rat hippocampal nonsynaptic mitochondria**
