Title: Skin suturing and cortical surface viral infusion improves imaging of neuronal ensemble activity with head-mounted miniature microscopes

Authors: Xinjian Li, Vania Y. Cao, Wenyu Zhang, Surjeet S. Mastwal, Qing Liu, Stephani Otte, Kuan Hong Wang

PII: S0165-0270(17)30297-2
DOI: <http://dx.doi.org/10.1016/j.jneumeth.2017.08.016>
Reference: NSM 7824

To appear in: *Journal of Neuroscience Methods*

Received date: 13-6-2017
Revised date: 20-7-2017
Accepted date: 14-8-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Skin suturing and cortical surface viral infusion improves imaging of neuronal ensemble activity with head-mounted miniature microscopes
