

## Accepted Manuscript

Title: Cerebral metabolic change in Parkinson's disease patients with anxiety: A FDG-PET study

Authors: Xixi Wang, Jiejing Zhang, Yongsheng Yuan, Tiannv Li, Li Zhang, Jian Ding, Siming Jiang, Junyi Li, Lin Zhu, Kezhong Zhang

PII: S0304-3940(17)30460-3  
DOI: <http://dx.doi.org/doi:10.1016/j.neulet.2017.05.062>  
Reference: NSL 32869

To appear in: *Neuroscience Letters*

Received date: 18-11-2016  
Revised date: 27-3-2017  
Accepted date: 28-5-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Role of prefrontostriatal pathways in PD with anxiety disorder.
- Cerebral metabolic activity changes of anxiety in PD via between-groups comparisons using FDG-PET.
- The orbitofrontal cortex as a characteristic feature for PD with anxiety.

**Abstract**

*Object:* To detect the cerebral metabolic bases of Parkinson's disease (PD) patients with anxiety.
