Title: Systemic demedetomidine attenuates mechanical allodynia through extracellular signal-regulated kinase signaling in db/db type 2 diabetic mice

Authors: Hui Chen, Xiang Xu, Xiao-Yu Yang, Bing-Yu Ling, He-Ping Sun, Liu Chao, Yu-Qiu Zhang, Hong Cao, Lan Xu

PII: S0304-3940(17)30620-1
DOI: <http://dx.doi.org/doi:10.1016/j.neulet.2017.07.048>
Reference: NSL 32988

To appear in: *Neuroscience Letters*

Received date: 6-6-2017
Revised date: 23-7-2017
Accepted date: 26-7-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title Page**Systemic Demedetomidine attenuates mechanical allodynia through extracellular signal-regulated kinase signaling in db/db type 2 diabetic mice**
