

Accepted Manuscript

Title: First evidence that waterborne methylphenidate alters endocrine and behavioral stress responses in zebrafish

Authors: Helena Cristina Endres, João Gabriel da Rosa, Celestin Kabaselle, Heloisa Helena Barcellos, Charise Dallazem Bertol, Leonardo José Gil Barcellos, Luciana Grazziotin Rossato-Grando

PII: S0304-3940(17)30340-3
DOI: <http://dx.doi.org/doi:10.1016/j.neulet.2017.04.039>
Reference: NSL 32780

To appear in: *Neuroscience Letters*

Received date: 15-3-2017
Revised date: 11-4-2017
Accepted date: 21-4-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

First evidence that waterborne methylphenidate alters endocrine and behavioral stress responses in zebrafish
