

## Accepted Manuscript

Title: Significance of aberrant glial cell phenotypes in pathophysiology of Amyotrophic Lateral Sclerosis

Author: Emiliano Trias Sofia Ibarburu Romina Barreto-Núñez Luis Barbeito

PII: S0304-3940(16)30546-8  
DOI: <http://dx.doi.org/doi:10.1016/j.neulet.2016.07.052>  
Reference: NSL 32207

To appear in: *Neuroscience Letters*

Received date: 28-4-2016  
Revised date: 4-7-2016  
Accepted date: 25-7-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Significance of aberrant glial cell phenotypes in pathophysiology of Amyotrophic Lateral Sclerosis
