Visually guided auditory attention in a dynamic “cocktail-party” speech perception task: ERP evidence for age-related differences

Dr. Stephan Getzmann, Edmund Wascher

PII: S0378-5955(16)30406-3

DOI: [10.1016/j.heares.2016.11.001](https://doi.org/10.1016/j.heares.2016.11.001)

Reference: HEARES 7266

To appear in: *Hearing Research*

Received Date: 7 September 2016

Revised Date: 20 October 2016

Accepted Date: 3 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
