Early cortical metabolic rearrangement related to clinical data in idiopathic sudden sensorineural hearing loss

Alessandro Micarelli, Agostino Chiaravalloti, Andrea Viziano, Roberta Danieli, Orazio Schillaci, Marco Alessandrini

PII: S0378-5955(16)30605-0

DOI: [10.1016/j.heares.2017.04.011](https://doi.org/10.1016/j.heares.2017.04.011)

Reference: HEARES 7358

To appear in: *Hearing Research*

Received Date: 19 December 2016

Revised Date: 13 April 2017

Accepted Date: 23 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
