Phenotypical, physiological and biochemical analyses provide insight into selenium-induced phytotoxicity in rice plants

Mohammad Golam Mostofa, Mohammad Anwar Hossain, Md Nurealam Siddiqui, Masayuki Fujita, Lam-Son Phan Tran

PII: S0045-6535(17)30409-5

DOI: [10.1016/j.chemosphere.2017.03.046](https://doi.org/10.1016/j.chemosphere.2017.03.046)

Reference: CHEM 18964

To appear in: *ECSN*

Received Date: 3 December 2016

Revised Date: 23 February 2017

Accepted Date: 11 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Phenotypal, physiological and biochemical analyses provide insight into selenium-induced**  
2 **phytotoxicity in rice plants**
