Photooxidation of cyclohexanone in simulated atmosphere: A potential source of atmospheric formic acid

Aparajeo Chattopadhyay, Koushik Mondal, Monoj Samanta, Tapas Chakraborty

PII: S1352-2310(17)30131-0

DOI: [10.1016/j.atmosenv.2017.03.007](https://doi.org/10.1016/j.atmosenv.2017.03.007)

Reference: AEA 15218

To appear in: *Atmospheric Environment*

Received Date: 24 November 2016

Revised Date: 3 March 2017

Accepted Date: 6 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
